

Dental Academic Community Outreach Product Request Form

Colgate recognizes that your planned outreach has the potential to improve the oral health of many individuals. Colgate has generously allocated products to support community outreach projects.

The projects must be approved by your school and have a faculty contact. Oral health education must be part of the community outreach project for consideration.

To assist with your project, please visit our on-line resources

www.colgateprofessional.com – access to patient education material

www.colgatebsbf.com - Colgate Bright Smiles Bright Futures® website: resources for oral health educators, young children, teachers and parents

To submit a request for consideration, please complete the top section of the following form. Submit the form via email attachment to becky_horst@colpal.com . Requests must be submitted a **minimum of six weeks** prior to the project date. Please allow five business days to receive a response to your request.
